

**Kompyuteringizda DiskDrillni saytiga tashrif  
buyurib DiskDrill ilovasini yuklab oling.**  
<https://www.cleverfiles.com>

## DiskDrill o'rnatish fayliga ilovasiga kiring

## Install tugmasini bosing

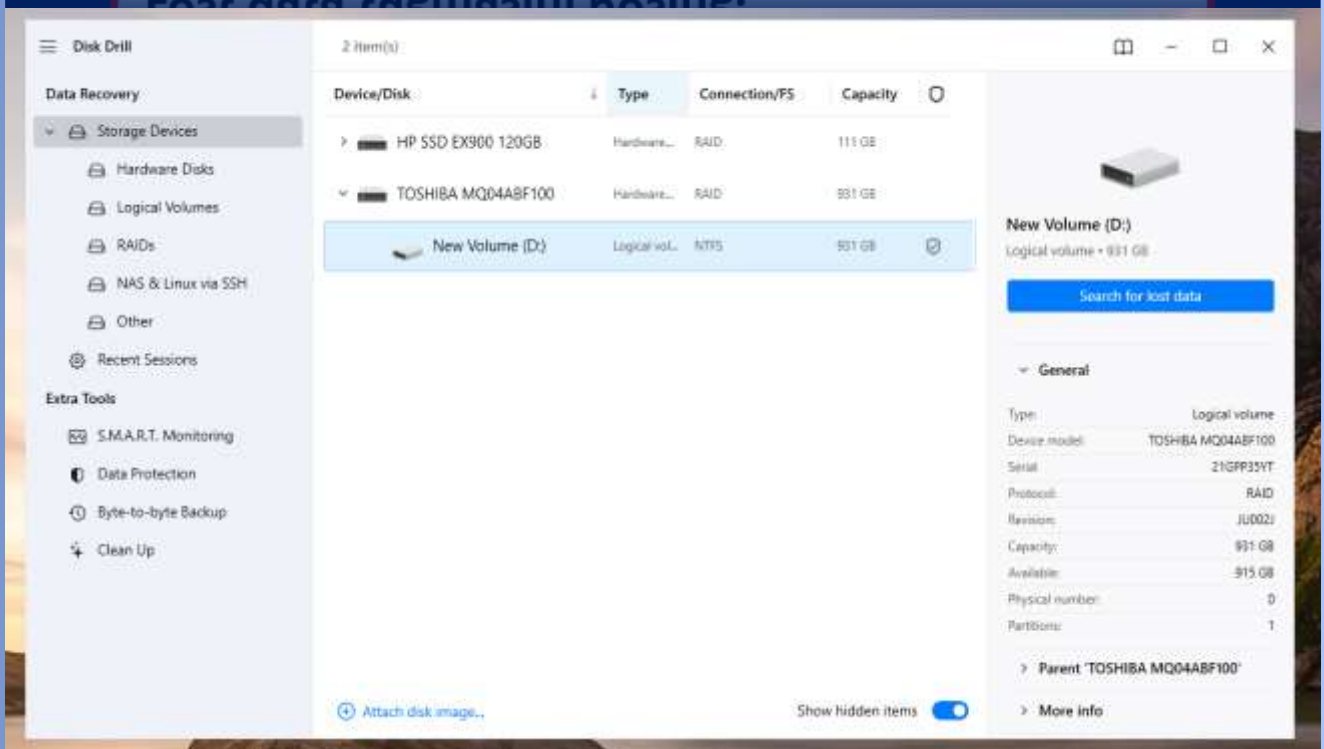

**O'rnatilgach Launch tugmasini bosib dasturni  
ishga tushiring**

**Yes tugmasini bosing**

**Qattiq diskni o'chirish va ichidan bo'limni tanlang (Masalan: D disk) tanlang va Search Lost data tugmasini bosing.**

## O'chirilgan fayllarni qidirishni boshlaydi.

Qidirib bo'lgach Fayl turiga qarab yoki Diskni umumiy tekshirib tanlab recovery tugmasini bosib tiklashingiz mumkin. Agar istasangiz Recovery All tugmasini bosib diskdagi hamma o'chirilgan ma'lumotni tiklashingiz mumkin.
